The kids from East Grover Lake love to play sports, and they love to compete against their crosstown rivals. They get most of their equipment at Sal's Used Sporting Goods, where the owner has all the best gear and some great stories about real-life sports legends, too. With all of that on their side, they just can't lose!

SCIENCE, TECHNOLOGY, AND SOCIETY 303.4

Advances in science and technology undeniably bring about societal change. Gene therapy, for instance, has the potential to revolutionize medicine and the treatment of debilitating illnesses but it also carries significant risks. The Science, Technology, and Society series examines scientific and technological advances in the context of their impact on society. Each book explores how and why this science or technology came about; how it has influenced or shaped daily life and culture; efforts to guide or control the technology through laws and policies; and what the next generation of this technology might look like. Focus questions encourage conversation and debate. Fully documented quotes enliven the narrative and add to the usefulness of the series as a tool for student researchers.

Teens who are trying to decide if the military is for them will find a useful tool in this easy-to-use series of reference guides. Each book in the Military Careers series focuses on a different branch of the military and introduces students to specific jobs representing an array of career possibilities. All books cover what the jobs entail; working conditions; educational and physical requirements; opportunities for advancement; employment prospects in the civilian world; and more. Perspectives from those who serve in these jobs, including a Q&A interview in each book, provide readers with a realistic depiction of life and work in the military.

WEAPONS OF WAR

355.8

These engaging titles provide readers with a comprehensive overview of the weapons used in military combat around the world. Each title begins with a discussion of the featured weapon, its importance and use in battles, and how this has changed over time. This section is followed by almanac-style entries that highlight featured models of this weapon through history, including specifications and performance statistics, and contributions in battle.

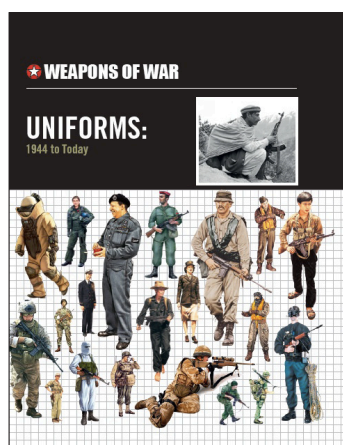

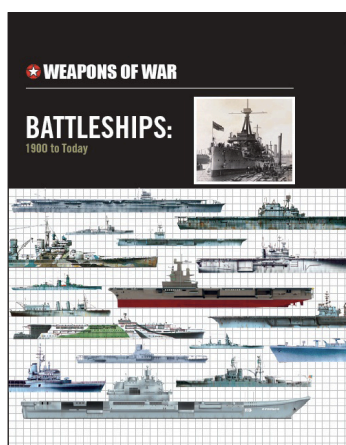

Artillery: 1945 to Today © 15	978-1-62588-040-6

Our planet is facing a range of challenges from global warming and environmental abuse from its inhabitants. Using an inquiry approach, this series explores these serious issues, offering accessible scientific explanations that reveal how the Earth's processes are interlinked – and how one event can trigger a chain reaction throughout the planet that can have consequential effects on both humans and nature. Each volume includes fascinating case studies, critical thinking questions, and projected future outcomes and potential solutions to these important global issues.

John F. Kennedy and Martin Luther King, Jr. were undoubtedly two of the most influential and charismatic leaders of the 20th century. In these volumes, readers will find the stories of these two giants and their impact on the world, as well as the struggle for civil rights, and a look at the conspiracy theories surrounding JFK's assassination that continue to flourish. Personal recollections and quotes, along with a wealth of historical photography, bring vivid perspective to these landmark events.
